

# MEET OUR NEW TRAINS

**AFTER TWO DECADES LEADING THE WAY IN HIGH SPEED CROSS-CHANNEL TRAIN TRAVEL, THE TIME HAS COME TO BREATHE NEW LIFE INTO OUR FLEET.**

With sleek lines, a smart new livery, chic designer interiors and a whole host of eco-friendly upgrades, their unveiling is the perfect milestone to mark Eurostar's 20th anniversary.

## DESIGNED TO MOVE YOU

Our new trains have been engineered especially for Eurostar by Siemens and designed with you in mind by the legendary Italian design house, Pininfarina.

We've worked closely with the designers to incorporate your feedback about our trains, and our new models include **free wi-fi**, a **completely redesigned bar buffet**, as well as **ergonomically designed seats** with UK and Continental **power sockets** and **fresh, bright toilets**.

We've also perfected every last detail, from **clever seat cushions** and **ingenious tables**, to smart **technological touches** and **intelligent lighting**. All to give you the ultimate in comfort for an effortless journey.

# TREADING LIGHTLY AS WE GO

Developing our new fleet is not just a chance to improve your travel experience, it's also a great opportunity to seek out the latest innovations in rail technology and find new ways to take care of our environment.

## DWARFING A JUMBO

Our new trains carry nearly 900 passengers. That's 150 more than previously and twice as many as a jumbo jet. This means that they're 17% more efficient per seat than our older trains.

## LIGHTBULB MOMENT

We've re-designed and re-engineered our trains so we have more control over lighting, saving energy and letting daylight do the work while we're above ground.

## HOW'S MY DRIVING?

As well as giving our drivers special eco-driving training, our new trains are all fitted with high-tech energy meters to help them track and manage energy consumption en route.

## RETIRE, REUSE, RECYCLE

We're already thinking ahead by making sure that fixtures and fittings like seat frames will be recyclable in the future. We even have recycling bins on board, so we're caring for the planet on every journey.

## FOLLOWING OUR NOSES

All of our trains' noses are super sleek and aerodynamic to reduce energy consumption and noise.

# FULL OF FEATURES

## KNOW WHICH SEATS ARE FREE

If you fancy a change of scene, new displays now show which seats aren't taken. Just look out for the indicator above the seat before you switch. Easy.

## LUGGAGE

With luggage racks and overhead racks inside each coach, boarding's faster than ever and you'll never be far from your belongings. When it's time to head off at the other end, special lighting will spring to life to remind you to take all your bits and bobs with you.

## A LITTLE LUXURY IN THE LOO

Should nature call en route, our new toilets are bright, white and fresh. We know that in the smallest room the tiniest details count, so look out for brand new features like touch-free taps and a baby changing table in every other cubicle.

## AUTOMATIC DOORS

Our touch-free glass doors open automatically – perfect for when you're carrying luggage or a glass of bubbly from the bar buffet.

## PASSENGERS OF REDUCED MOBILITY

Everyone travelling with us should have a simple, seamless journey. That's why, as part of our re-design, we've focused on making life easier for passengers who have special requirements, with priority seats for people with reduced mobility, more wheelchair facilities and wheelchair lifts.

# SPEED AND SIMPLICITY

## STANDARD

**Standard class is anything but ordinary. With sleek, stylish surroundings and a light, bright and calming new colour scheme, you can relax in comfort every mile of the way.**

Step on board and settle into your seat, extending the cushion and reclining whenever you fancy a snooze, without encroaching on the space of the traveller behind you.

With a clever folding table and a socket at every seat, it's easy to make the most of your time on board, whether you're catching up on work or the latest box set.

And if you need anything from your bag, it won't be far away, with luggage racks and overhead racks in each coach.

**So sit back, relax and let us whisk you away.**

# COMFORT, STYLE & TOTAL TRANQUILLITY

## BUSINESS PREMIER & STANDARD PREMIER

Our new Business Premier and Standard Premier coaches have ushered in a new era of comfort at Eurostar. They've been entirely refreshed, with a new colour scheme and a truly intuitive design.

With comfort as our top priority, you'll unwind in a new seat with a **deeper recline** allowing you to stretch out and gently slide back a full 10cm, without encroaching on the space of the traveller behind you. The **seat cushion also extends**, giving extra comfort to those with longer legs. Extra storage and a slimline table give you space to spread out and work or stretch out and snooze.

And we know your time on board is precious, so if you have work to catch up on or your favourite programme to watch on your tablet, attention to detail makes it simple to work or unwind all the way. From a **pocket** for your laptop to a handy **cup holder**, a **power socket** and a **USB port**, as well as a **personal light**, **mirror** and **coat hook**, you'll have everything you need within easy reach.

# STAY CONNECTED

## FREE WI-FI FOR ALL

We know how important it is to stay connected, so with free wi-fi throughout the train, you can now email, chat or tweet all the way. Just connect your phone, laptop or tablet to stay in the loop en route.

## NEWS, WEATHER AND MORE

Our wi-fi portal is full of information, all at your fingertips. You'll find live news and weather, as well as a carefully curated collection of destination guides, so you can plan your trip on the way.

## ONBOARD SCREENS

From where we are and how fast we're travelling, to our stops en route and special offers in the bar buffet, new screens in every coach now show everything you need to know on board.

# BREAKFAST, LUNCH AND DÎNER

## OUR NEW BAR BUFFET

**No Eurostar trip would be complete without un petit pain au chocolat or a bottle of bubbly. So, we've given our bar buffets a makeover, bringing in sleek new lines and a better layout.**

If you find yourself getting peckish, peruse the new chiller or enjoy something fresh from the oven. Order at the counter from our delicious range of meals, sandwiches, snacks and treats. Our coffee's also getting an upgrade with new bean to cup machines for the perfect café au lait or cappuccino.

And there'll be even more than before, with space for us to carry extra food and drinks on longer routes.

**Bon appétit.**
